NOTICE OF FINDING OF NO SIGNIFICANT IMPACT AND NOTICE OF INTENT TO REQUEST RELEASE OF FUNDS

June 25, 2020

Kentucky Housing Corporation
1231 Louisville Road
Frankfort, KY 40601

These notices shall satisfy two separate but related procedural requirements for activities to be undertaken by Kentucky Housing Corporation.

REQUEST FOR RELEASE OF FUNDS

On or about July 13, 2020, Kentucky Housing Corporation (KHC) will submit a request to the U.S. Department of Housing and Urban Development for the release of HUD HOME Investment Partnerships (HOME) Program funds and Self-Help Homeownership Opportunity Program (SHOP) funds (on behalf of Housing Assistance Council, the grantee) to undertake a project known as HDA Allais Community Subdivision Project as detailed below.

Project Title:	HDA Allais Community Subdivision
Project Location:	Hopper Circle, Hazard KY 41701
Purpose of Project:	The project consists of the new construction of 15 residential units in Hazard, Perry County, KY.
Project Cost:	$800,000 in HOME funds, $225,000 in SHOP funds (anticipated but not yet awarded by Housing Assistance Council) and $730,000 in non-HUD funding for a total project cost of $1,755,000
Applicant/Recipient Agency:	Housing Development Alliance 2871 North Main Street, Hazard, KY 41701

FINDING OF NO SIGNIFICANT IMPACT

KHC has determined that the project will have no significant impact on the human environment. Therefore, an Environmental Impact Statement under the National Environmental Policy Act of 1969 (NEPA) is not required. Additional project information is contained in the Environmental Review Record (ERR) on file available for download at www.housingdevelopmentalliance.org and https://www.hudexchange.info/programs/environmental-review/environmental-review-records/ or at the office of Housing Development Alliance at 2871 North Main Street, Hazard, KY 41701 and is available for public examination and copying, upon request, between the hours of 9A.M. and 4 P.M. The ERR is also available for review via US Mail or email upon request. Submit requests to receive a copy of the ERR to Curtis Stauffer at the address at the top of this notice or at cstauffer@kyhousing.org.

PUBLIC COMMENTS

Any individual, group, or agency disagreeing with this determination or wishing to comment on the project may submit written comments to KHC, Attn. Curtis Stauffer, at the address at the top of this notice or via email to cstauffer@kyhousing.org. All comments received by July 10, 2020 will be considered by KHC prior to authorizing submission of a request for release of funds. Comments should specify which notice they are addressing.

ENVIRONMENTAL CERTIFICATION

The Kentucky Housing Corporation certifies to HUD that Lisa Beran in her capacity as Interim Executive Director consents to accept the jurisdiction of the Federal Courts if an action is brought to enforce responsibilities in relation to the environmental review process and that these responsibilities have been satisfied. HUD's approval of the certification satisfies its responsibilities under NEPA and related laws and authorities and allows KHC to use Program funds.

OBJECTIONS TO RELEASE OF FUNDS

HUD will accept objections to its release of funds and KHC's certification for a period of 15 days following the anticipated submission date, or its actual receipt of the request (whichever is later), only if they are on one of the following bases: (a) the certification was not executed by the Certifying Officer of KHC; (b) KHC has omitted a step or failed to make a decision or finding required by HUD regulations at 24 CFR Part 58; (c) the grant recipient has committed funds or incurred costs not authorized by 24 CFR Part 58 before approval of a release of funds by HUD/state; or (d) another federal agency acting pursuant to 40 CFR Part 1504 has submitted a written finding that the project is unsatisfactory from the standpoint of environmental quality. Objections must be prepared and submitted via email in accordance with the required procedures (24 CFR Part 58, Sec. 58.76) and shall be addressed to the HUD Louisville Field Office at CPD_COVID-19OEE-LOU@hud.gov. Potential objectors should contact the HUD Louisville Field Office to verify the actual last day of the objection period.

Environmental Assessment Determinations and Compliance Findings for HUD-assisted Projects 24 CFR Part 58

Project Information

Project Name: HDA-Allais-Community-Subdivision-Hopper-Circle-Hazard-KY

HEROS Number: 900000010118277

Project Location: 140 Hopper Cir, Hazard, KY 41701

Additional Location Information:
Decimal latitutde/longitude coordinates: 37.266140/-83.184778.

Description of the Proposed Project [24 CFR 50.12 & 58.32; 40 CFR 1508.25]:
Housing Development Alliance, Inc. (HDA), a non-profit Community Housing Development Organization (CHDO) located in Perry County, KY, will construct 15 units of detached single-family housing for sale to low-income homebuyers on an approximately 2.94 acre property located on Hopper Circle, Hazard, Perry County, KY 41701 (decimal latitude/longitude coordinates: 37.266140/-83.184778). HDA will acquire the project site after the City of Hazard prepares it by demolishing an existing abandoned shopping center and installing new road, sewer, and water infrastructure. Non-HUD funding sources expected to be invested in the property include: USDA-RD, FHLB-AHP, homebuyer sweat equity, local grants and HDA developer capital. This project will be part of a larger scattered site new home construction program. Since HDA is a scattered site developer, and they allow each potential buyer to select a home location, either from land in HDA's inventory or land that buyers bring to them, the specific sizes and values of the 15 houses is not yet known. Most units will be single story "ranch style" homes, but at least one and possibly more will be unit will be two stories (one lot requires a two-story home and several other lots could hold either a one-story or two-story home). Clients will select home designs that have either 3 or 4 bedrooms and either 1 or 2 bathrooms. The square footage of the available designs will range from 1,000 to 1,400 square feet. These newly constructed homes will be sold to families with varied income levels who wish to reside in Hazard, Kentucky. Specific funded activities may include, but not be limited to: appraisals; boundary survey; fees related to title transfer, recording, closing costs, and similar charges; funds for contingencies; new construction; permanent financing; architectural/engineering design fees and inspection; preparation of plans, specifications and bid documents; construction inspection; developer fee; and planning/administrative fees. (Note: Kentucky Housing Corporation regards the demolition of the abandoned Hopper Circle Shopping Center and preparation of the project site for residential new construction by the City of Hazard a separate undertaking from HDA's new construction of 15 single-family units using HUD HOME funding because, as stated above, site will not be eligible for CHDO funding until HDA establishes site control following the City's site preparation activities.) Anticipated HOME funding is $800.000. NOTE: HDA has applied for but not yet been granted $225,000 in SHOP funding, awarded through Housing Assistance Council. This SHOP funding is will be

treated as supplemental assistance pursuant to 24 CFR 58.35(b)(7) once awarded. Estimated total project cost is $1,755,000.

Funding Information

Grant Number	HUD Program	Program Name
M19SG210100	Community Planning and Development (CPD)	HOME Program

Estimated Total HUD Funded Amount: $800,000.00

Estimated Total Project Cost [24 CFR 58.2 (a) (5)]: $1,755,000.00

Mitigation Measures and Conditions [CFR 1505.2(c)]:

Summarized below are all mitigation measures adopted by the Responsible Entity to reduce, avoid or eliminate adverse environmental impacts and to avoid non-compliance or non-conformance with the above-listed authorities and factors. These measures/conditions must be incorporated into project contracts, development agreements and other relevant documents. The staff responsible for implementing and monitoring mitigation measures should be clearly identified in the mitigation plan.

Law, Authority, or Factor	Mitigation Measure or Condition
Contamination and Toxic Substances	Prior to selling the project site to Housing Development Alliance, Inc. (HDA) for the construction of 15 units of detached single-family housing, the City of Hazard demolished the abandoned Hopper Circle Shopping Center, removed all demolition waste, and will install road, sidewalk, sewer, and water infrastructure. The demolition/infrastructure project will mitigate identified on-site contaminants and toxic substances prior to the initiation of the HDA new homebuyer construction project. The City of Hazard assessed existing on-site contamination risks using inspections and analyses by the Smith Management Group (SMG), an environmental consulting firm, which found non-friable asbestos and trace amounts of lead-based paint. (See attached reports.)
Hazards and Nuisances including Site Safety and Site-Generated Noise	The City of Hazard demolished the abandoned Hopper Circle Shopping Center before March 31, 2020 and prior to Housing Development Alliance's acquisition of the project site. The City's demolition complied with all applicable environmental regulations for asbestos and lead-based paint. All demolished materials were disposed of at the Laurel Ridge Landfill (a.k.a. Lily Landfill), a location approved for disposal of such materials by the

	Kentucky Department of Air Quality. Asbestos and lead-based paint containing materials were removed from the project site via the demolition and disposal activities and will not pose a risk to future residents of the project area. No further mitigation is necessary.
Permits, reviews, and approvals	The City of Hazard must approve the final plat map for the project prior to granting building, plumbing, and electrical permits for each individual unit to be constructed. No other permits or approvals are necessary.

Mitigation Plan

The abandoned Hopper Circle Shopping Center contained non-friable asbestos and trace amounts of lead-based paint. The City of Hazard mitigated these toxic substances prior to selling the property to HDA. As stated in a letter from Hazard City Manager Derrick Hall to R. Scott McReynolds, Executive Director of HDA, dated March 31, 2020, "City of Hazard and its Contractors followed procedures mandated by the Kentucky Division of Air Quality concerning the removal of the demolition debris containing asbestos and traces of lead-based paint from the project site, disposal of those materials in an approved waste facility for those toxic substances, and compliance with all applicable regulations governing demolition and disposal of asbestos and lead based paint containing materials by the demolition contractor." The demolition waste was disposed in the Laurel Ridge Landfill (a.k.a. Lily Landfill), an approved location for the disposal of such materials. No further mitigation is necessary.

Determination:

☒	Finding of No Significant Impact [24 CFR 58.40(g)(1); 40 CFR 1508.13] The project will not result in a significant impact on the quality of human environment

Description of the Proposed Project [24 CFR 50.12 & 58.32; 40 CFR 1508.25]:

Housing Development Alliance, Inc. (HDA), a non-profit Community Housing Development Organization (CHDO) located in Perry County, KY, will construct 15 units of detached single-family housing for sale to low-income homebuyers on an approximately 2.94 acre property located on Hopper Circle, Hazard, Perry County, KY 41701 (decimal latitude/longitude coordinates: 37.266140/-83.184778). HDA will acquire the project site after the City of Hazard prepares it by demolishing an existing abandoned shopping center and installing new road, sewer, and water infrastructure. Non-HUD funding sources expected to be invested in the property include: USDA-RD, FHLB-AHP, homebuyer sweat equity, local grants and HDA developer capital. This project will be part of a larger scattered site new home construction program. Since HDA is a scattered site developer, and they allow each potential buyer to select a home location, either from land in HDA's inventory or land that buyers bring to them, the specific sizes and values of the 15 houses is not yet known. Most units will be single story "ranch style" homes, but at least one and possibly more will be unit will be two stories (one lot requires a two-story home and several other lots could hold either a one-story or two-story home). Clients will select home designs that have either 3 or 4 bedrooms and either 1 or 2 bathrooms. The square footage of the available designs will range from 1,000 to 1,400 square feet. These newly constructed homes will be sold to families with varied income levels who wish to reside in Hazard, Kentucky. Specific funded activities may include, but not be limited to: appraisals; boundary survey; fees related to title transfer, recording, closing costs, and similar charges; funds for contingencies; new construction; permanent financing; architectural/engineering design fees and inspection; preparation of plans, specifications and bid documents; construction inspection; developer fee; and planning/administrative fees. (Note: Kentucky Housing Corporation regards the demolition of the abandoned Hopper Circle Shopping Center and preparation of the project site for residential new construction by the City of Hazard a separate undertaking from HDA's new construction of 15 single-family units using HUD HOME funding because, as stated above, site will not be eligible for CHDO funding until HDA establishes site control following the City's site preparation activities.) Anticipated HOME funding is $800.000. NOTE: HDA has applied for but not yet been granted $225,000 in SHOP funding, awarded through Housing Assistance Council. This SHOP funding is will be treated as supplemental assistance pursuant to 24 CFR 58.35(b)(7) once awarded. Estimated total project cost is $1,755,000.

Statement of Purpose and Need for the Proposal [40 CFR 1508.9(b)]:

There is a great need for safe, decent, affordable housing in Perry County, KY and surrounding areas. Housing Development Alliance, Inc. (HDA), which develops affordable homes for sale to low-income homebuyers, has a 5-county CHDO service area in southeastern Kentucky: Breathitt, Floyd, Knott, Leslie, and Perry Counties. HDA currently has over 300 families on its "active client list" that are working toward homeownership. According to the 2014-2018 American Community Survey (ACS),

28.6% of homeowners in Perry County are housing cost-burdened, paying more than 30% of household income on housing costs. The ACS also reports that 54.7% of renter households in Perry County are housing cost burdened, with 48.3% paying more than 35% of household income. Median household income for the county is only $30,503, with 23.0% of Perry County residents with household incomes below the poverty line. Construction of these fifteen energy-efficient affordable homeownership units will help meet the great need for affordable housing in Perry County.

Existing Conditions and Trends [24 CFR 58.40(a)]:

The project site is the location of the abandoned Hopper Circle Shopping Center, which was demolished by the City of Hazard in early 2020. Prior to selling the property to HDA for the development of 15 units of single-family, the City of Hazard will prepare the site for housing construction by installing road, sidewalk, water, and sewer infrastructure. The development of the Allais Community Subdivision will benefit Hazard and Perry County not only by providing 15 units of affordable housing to low-income residents, but will also redevelop a blighted property that negatively impacts nearby residents. To facilitate the redevelopment of the abandoned shopping mall site as housing, the City of Hazard rezoned the parcel from Business B-2 to Residential R-3 on October 17, 2016. The project site is located the Allais Neighborhood in the City of Hazard near the North Fork Kentucky River. It is surrounded on the southern and western perimeter by existing housing on Hopper Circle. It is a short walk to the campus of Hazard Community and Technical College and is close to Hazard schools. The project site is 1/4 mile from Main Street, which is Hazard's primary downtown commercial corridor and has easy access to healthcare and government services in Hazard. The site is located in Census Tract 9706. According to the 2014-2018 American Community Survey 5-year estimate, the total population of Census Tract 9706 is 4,822 persons, with 1,317 owner-occupied units and 901 renter-occupied units. 19.3% of the households living in this Census Tract are below the poverty line and 21.0% of homeowners in the census tract are housing cost burdened as are 42.7% of renter households.

Funding Information

Grant / Project Identification Number	HUD Program	Program Name
M19SG210100	Community Planning and Development (CPD)	HOME Program

Estimated Total HUD Funded, Assisted or Insured Amount: $800,000.00

Estimated Total Project Cost [24 CFR 58.2 (a)(5)]: $1,755,000.00

Compliance with 24 CFR §50.4, §58.5 and §58.6 Laws and Authorities

Compliance Factors: Statutes, Executive Orders, and Regulations listed at 24 CFR §50.4, §58.5, and §58.6	Are formal compliance steps or mitigation required?	Compliance determination (See Appendix A for source determinations)
STATUTES, EXECUTIVE ORDERS, AND REGULATIONS LISTED AT 24 CFR §50.4 & § 58.6		
Airport Hazards Clear Zones and Accident Potential Zones; 24 CFR Part 51 Subpart D	☐ Yes ☑ No	The project site is not within 15,000 feet of a military airport or 2,500 feet of a civilian airport. The project is in compliance with Airport Hazards requirements. The project site is 8.66 miles from Wendell H. Ford Airport, the nearest airport.

Coastal Barrier Resources Act Coastal Barrier Resources Act, as amended by the Coastal Barrier Improvement Act of 1990 [16 USC 3501]	☐ Yes ☑ No	This project is located in a state that does not contain CBRS units. Therefore, this project is in compliance with the Coastal Barrier Resources Act.
Flood Insurance Flood Disaster Protection Act of 1973 and National Flood Insurance Reform Act of 1994 [42 USC 4001-4128 and 42 USC 5154a]	☐ Yes ☑ No	The structure or insurable property is not located in a FEMA-designated Special Flood Hazard Area. While flood insurance may not be mandatory in this instance, HUD recommends that all insurable structures maintain flood insurance under the National Flood Insurance Program (NFIP). The project is in compliance with flood insurance requirements. The FIRMette Map for the project site shows that it is adjacent to a floodplain, but is in an area of minimal flood hazard (map panel #21193CO93D, effective 8/2/2006).
STATUTES, EXECUTIVE ORDERS, AND REGULATIONS LISTED AT 24 CFR §50.4 & § 58.5		
Air Quality Clean Air Act, as amended, particularly section 176(c) & (d); 40 CFR Parts 6, 51, 93	☐ Yes ☑ No	The project's county or air quality management district is in attainment status for all criteria pollutants. The project is in compliance with the Clean Air Act. The project site is located in Perry County, Kentucky. Project is not located in an EPA-designated non-attainment area or maintenance area for one or more of six criteria pollutants, called National Ambient Air Quality Standards (NAAQS). (https://www3.epa.gov/airquality/greenbook/phistory_ky.html)
Coastal Zone Management Act Coastal Zone Management Act, sections 307(c) & (d)	☐ Yes ☑ No	This project is located in a state that does not participate in the Coastal Zone Management Program. Therefore, this project is in compliance with the Coastal Zone Management Act.
Contamination and Toxic Substances 24 CFR 50.3(i) & 58.5(i)(2)]	☐ Yes ☑ No	On-site or nearby toxic, hazardous, or radioactive substances were found that could affect the health and safety of project occupants or conflict with the intended use of the property. The adverse environmental impacts can be

		mitigated. With mitigation, identified in the mitigation section of this review, the project will be in compliance with contamination and toxic substances requirements. Prior to selling the project site to Housing Development Alliance, Inc. (HDA) for the construction of 15 units of detached single-family housing, the City of Hazard demolished the abandoned Hopper Circle Shopping Center, removed all demolition waste, and will install road, sidewalk, sewer, and water infrastructure. Demolition and demolition waste removal was completed before March 31, 2020. As documented in assessment reports by Smith Management Group conducted in 2017, the abandoned Hopper Circle Shopping Center contained non-friable asbestos and trace amounts of lead-based paint. The City of Hazard mitigated these toxic substances prior to the forthcoming sale of the property to HDA. As stated in a letter from Hazard City Manager Derrick Hall to R. Scott McReynolds, Executive Director of HDA, dated March 31, 2020, "City of Hazard and its Contractors followed procedures mandated by the Kentucky Division of Air Quality concerning the removal of the demolition debris containing asbestos and traces of lead-based paint from the project site, disposal of those materials in an approved waste facility for those toxic substances, and compliance with all applicable regulations governing demolition and disposal of asbestos and lead based paint containing materials by the demolition contractor." The demolition waste was disposed in the Laurel Ridge Landfill in Lily, KY (referred to as "the Lily Landfill in Mr. Hall's letter) or with metals recycled at Dixie Recycling and Wright Recycling, as

		demonstrated by transfer tickets attached to Mr. Hall's letter. Debris disposal was completed in February 2020. Laurel Ridge Landfill (see attached printout of their "Services" webpage) is one of seven Kentucky Energy and Environment Cabinet Solid Waste Branch-certified Construction and Demolition Debris Landfills greater than one acre, as seen in the attached map. Mr. Hall's letter to HDA also stated "Of course, all demolition activities will be complete well before any sale of lots to you occurs." A NEPAssist search found 9 EPA-regulated facilities within a 3,000-foot radius of the project site. ECHO reports demonstrated that 8 of the 9 facilities had no violations within the last 12 quarters. The ECHO report for Dixie Recycling shows that the facility is in "Significant/Category I Noncompliance" for "Failure to Report DMR - Not Received" from the fourth quarter of Federal Fiscal Year 2017 through the fourth quarter of Federal Fiscal Year 2019 and an additional violation in the first quarter of Federal Fiscal Year 2020 for a pH limit violation. On February 20, 2020, Kentucky Housing Corporation initiated consultation with the Division of Waste Management of the Kentucky Energy and Environment Cabinet to determine if Dixie Recycling's noncompliance poses a threat to residents living 1,531 feet away at the site of the proposed Allais Community Subdivision. In an email dated February 21, 2020, Edward Winner, PhD, Assistant Director of the Division of Waste Management, stated "If the Division of Waste Management had information in terms of sampling data, etc. that indicated that Dixie Recycling was a danger to human health to the surrounding properties the

		Division would take action. By all appearances, Dixie Recycling is a typical metal recycler that does not pose a human health risk to surrounding properties."
Endangered Species Act Endangered Species Act of 1973, particularly section 7; 50 CFR Part 402	☐ Yes ☑ No	This project will have No Effect on listed species based on a letter of understanding, memorandum of agreement, programmatic agreement, or checklist provided by local HUD office. This project is in compliance with the Endangered Species Act. A letter from Community & Economic Development Associates dated October 30, 2018 requested US Fish and Wildlife Service (USFWS) review of the City of Hazard's proposed activities for the project site including: "acquire the existing shopping center; remove all hazardous materials. such as asbestos; demolish the existing shopping center; remove all asphalt parking materials & grade site; construct water & sewer lines to new homes; construct stormwater facilities, street, curbs, sidewalks, and gutters; and construct up to fifteen (15)new 2 & 3-bedroom single family homes." The USFWS Kentucky Field Supervisor stamped response dated November 9, 2019 states that "significant impacts to federally-listed species are not likely to result from this project as currently proposed." Note: Kentucky Housing Corporation regards the demolition of the abandoned Hopper Circle Shopping Center and preparation of the project site for residential new construction by the City of Hazard a separate undertaking from HDA's new construction of 15 single-family units using HUD HOME funding because the site will not be eligible for CHDO funding until HDA establishes site control by acquiring the property

		following the City's site preparation activities, even though the SHPO reviewed the proposed project in total.
Explosive and Flammable Hazards Above-Ground Tanks)[24 CFR Part 51 Subpart C	☐ Yes ☑ No	There are no current or planned stationary aboveground storage containers of concern within 1 mile of the project site. The project is in compliance with explosive and flammable hazard requirements. A review of Google Earth Aerial maps found 2 above ground storage tanks within a one-mile radius of the project site. However none of the tanks contain explosive or flammable materials. The tank labeled "Above Ground Storage Tank #1" in the Google Earth map is a ground storage water tank and the tanks labeled "Above Ground Storage Tanks #2" are sewage treatment tanks. This was verified by HDA following telephone correspondence with City of Hazard Engineer Hank Spalding on February 11, 2020.
Farmlands Protection Farmland Protection Policy Act of 1981, particularly sections 1504(b) and 1541; 7 CFR Part 658	☐ Yes ☑ No	This project includes activities that could potentially convert agricultural land to a non-agricultural use, but an exemption applies. The project is in compliance with the Farmland Protection Policy Act. As demonstrated in a Google Earth aerial map, there are more 30 structures in the area surrounding the project site, thus land is already committed to urban development per 7 CFR 658.2. Additionally, the USDA Web Soil Survey map of the project site documents that its soil consists of "uNeuD-Nelse, frequently flooded-Urban land, rarely flooded complex, 4 to 25 percent slopes" which is not prime farmland or farmland of statewide importance.
Floodplain Management Executive Order 11988, particularly section 2(a); 24 CFR Part 55	☐ Yes ☑ No	This project does not occur in a floodplain. The project is in compliance with Executive Order 11988. The

		FIRMette map for the project site demonstrates that it is adjacent to a floodplain, but is in an area of minimal flood hazard (map panel 21193CO193D, effective 8/2/2006).
Historic Preservation National Historic Preservation Act of 1966, particularly sections 106 and 110; 36 CFR Part 800	☐ Yes ☑ No	Based on Section 106 consultation the project will have No Adverse Effect on historic properties. Conditions: None. Upon satisfactory implementation of the conditions, which should be monitored, the project is in compliance with Section 106. In fall 2018, Community & Economic Development Associates, a consultant for the City of Hazard, requested that the Kentucky Heritage Council, the State Historic Preservation Office (SHPO), review the proposed Allais Property Redevelopment Project. In a letter dated November 7, 2018, the SHPO stated "Our review indicates that the proposed project will not impact any properties or sites that are listed in or eligible for the National Register of Historic Places. The proposed project should not require an archaeological survey or cultural historic survey." Kentucky Housing Corporation invited the Eastern Band of Cherokee Indians to be a consulting party on the historic review for the project via a letter delivered via email on February 19, 2020. The tribe did not respond within the 30-day threshold specified by HUD CPD Notice 12-006. Note: Kentucky Housing Corporation regards the demolition of the abandoned Hopper Circle Shopping Center and preparation of the project site for residential new construction by the City of Hazard a separate undertaking from HDA's new construction of 15 single-family units using HUD HOME funding because the site will not be eligible for CHDO funding

		until HDA establishes site control by acquiring the property following the City's site preparation activities, even though the SHPO reviewed the proposed project in total.
Noise Abatement and Control Noise Control Act of 1972, as amended by the Quiet Communities Act of 1978; 24 CFR Part 51 Subpart B	☐ Yes ☑ No	A Noise Assessment was conducted. The noise level was acceptable: 47.0 db. See noise analysis. The project is in compliance with HUD's Noise regulation. The National Transportation Noise Map for the project site demonstrates that it is beyond the 35dB threshold. The project site is 4,892 feet from KY-15, the nearest major road. DNL calculations for the nearest non-major roads with Average Daily Traffic (ADT) data available [Allais Road (186 ft. away, ADT=1,512, no truck traffic) and North Main Street (718 feet away, ADT=3,450, 1.282% truck data, 0% grade)] determine the road noise level to be 47dB. The project site is 1.0 mile from the nearest active railroad. Please note that CSX has discontinued service at a railroad nearer the project site, per the USDOT Crossing Inventory Report for crossing #351722A. The nearest active railroad crossing is number 346109Y, as noted on the attached FRA Map. The project site is 8.66 miles from Wendell H. Ford Airport and 10.26 miles from Duff Airport, but the HUD Airport Noise Worksheets for both airports document that noise is not expected to extend beyond airport boundaries.
Sole Source Aquifers Safe Drinking Water Act of 1974, as amended, particularly section 1424(e); 40 CFR Part 149	☐ Yes ☑ No	The project is not located on a sole source aquifer area. The project is in compliance with Sole Source Aquifer requirements. There are no sole source aquifers in Kentucky.
Wetlands Protection Executive Order 11990, particularly sections 2 and 5	☐ Yes ☑ No	The project will not impact on- or off-site wetlands. The project is in compliance with Executive Order 11990.

		The USFWS Wetlands Map shows that the project site is not within a wetland.
Wild and Scenic Rivers Act Wild and Scenic Rivers Act of 1968, particularly section 7(b) and (c)	☐ Yes ☑ No	This project is not within proximity of a NWSRS river. The project is in compliance with the Wild and Scenic Rivers Act. Environmental Assessment Factors [24 CFR 58.40; Ref. 40 CFR 1508.8 &1508.27]

Impact Codes: An impact code from the following list has been used to make the determination of impact for each factor.
(1) Minor beneficial impact
(2) No impact anticipated
(3) Minor Adverse Impact – May require mitigation
(4) Significant or potentially significant impact requiring avoidance or modification which may require an Environmental Impact Statement.

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
LAND DEVELOPMENT			
Conformance with Plans / Compatible Land Use and Zoning / Scale and Urban Design	1	To facilitate the redevelopment of the abandoned shopping mall site as housing, the City of Hazard rezoned the parcel from Business B-2 to Residential R-3 on October 17, 2016. The site is in a residential neighborhood and is adjacent to existing single-family	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
LAND DEVELOPMENT			
		homes. The redevelopment of this blighted property with 15 units of new single-family detached housing will be a benefit to the community and will mesh well with adjacent land uses and structures.	
Soil Suitability / Slope/ Erosion / Drainage and Storm Water Runoff	2	Design of the project and construction methods employed will work to ensure that the project does not negatively affect slope or erosion of the surrounding neighborhood. Best management practices will be utilized to reduce runoff from project construction activities into nearby waters. The proposed project will not create or contribute runoff water that would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff. The City of Hazard will install water, sanitary sewer, storm sewer, road, and curb infrastructure prior to selling the property to Housing Development Alliance for the new construction of 15 units of single-family detached housing. The City will also install a retaining wall on portions of the southeast perimeter of the project site prior to site acquisition by HDA.	
Hazards and Nuisances including Site Safety	1	This project involves new construction only. The City of	The City of Hazard demolished the

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
LAND DEVELOPMENT			
and Site-Generated Noise		Hazard removed existing on-site asbestos and lead-based paint hazards via the demolition of the abandoned Hopper Circle Shopping Center prior to Housing Development Alliance's acquisition of the project site. The City's demolition complied with all applicable environmental regulations for asbestos and lead-based paint. All demolished materials were disposed of at the Laurel Ridge Landfill (a.k.a. Lily Landfill), a location approved for disposal of such materials by the Kentucky Department of Air Quality. Asbestos and lead-based paint containing materials were removed from the project site via the demolition and disposal activities and will not pose a risk to future residents of the project area. There are no above ground storage tanks that contain flammable hazards within the vicinity of the project. A NEPAssist search found 9 EPA-regulated facilities within a 3,000-foot radius of the project site. ECHO reports demonstrated that 8 of the 9 facilities had no violations within the last 12 quarters. The ECHO report for Dixie Recycling shows that the facility is in ''Significant/Category I Noncompliance'' but in an	abandoned Hopper Circle Shopping Center before March 31, 2020 and prior to Housing Development Alliance's acquisition of the project site. The City's demolition complied with all applicable environmental regulations for asbestos and lead-based paint. All demolished materials were disposed of at the Laurel Ridge Landfill (a.k.a. Lily Landfill), a location approved for disposal of such materials by the Kentucky Department of Air Quality. Asbestos and lead-based paint containing materials were removed from the project site via the demolition and disposal activities and will not pose a risk to future residents of the project area. No further mitigation is necessary.

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
LAND DEVELOPMENT			
		email dated February 21, 2020, Edward Winner, PhD, Assistant Director of the Kentucky Division of Waste Management, stated ''If the Division of Waste Management had information in terms of sampling data, etc. that indicated that Dixie Recycling was a danger to human health to the surrounding properties the Division would take action. By all appearances, Dixie Recycling is a typical metal recycler that does not pose a human health risk to surrounding properties.'' Therefore, there are no nearby sources of pollution that could harm residents. The site is not located within 1,000 feet of a major road or within 3,000 feet of a railroad. The project site is located within 15 miles of an FAA-regulated airport, but the Airport Noise Worksheet demonstrates that that the airport is not expected to generate noise beyond the airpo1t boundaries. Additionally, the National Transportation Noise Map for the project site demonstrates that it is beyond the 35dB threshold Therefore, there is no noise impact on resident at the project site. Furthermore, noise impact from the proposed use will be limited to construction activity	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
LAND DEVELOPMENT			
		to complete the proposed project. The project will result in the re-development of a site that formerly contained environmental hazards.	
Energy Consumption/Energy Efficiency	1	The state of Kentucky requires developments to meet the KY Residential Building Code and encourages the use of Green Building Techniques and Energy Efficient Design Components. Housing Development Alliance includes a variety of energy saving construction methods as part of their standard practices. This includes sealing all electrical and plumbing penetrations into a house, using ''open corners'' in wall framing to increase insulation, increasing the insulation in the attic to R-48, using thermostatically controlled foundation vents, and many other techniques. Additionally, each home is energy star rated with an average HERS rating of 57.	
SOCIOECONOMIC			
Employment and Income Patterns	1	While the project, due to its limited size, will have no influence on the employment and income patterns in Perry County, the creation of permanently affordable housing will reduce the housing cost burden for the homebuyers and increase their economic stability.	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
LAND DEVELOPMENT			
Demographic Character Changes / Displacement	2	The creation of 15 new affordable units for sale to low-income homebuyers will have no effect on the demographic character of Perry County due to the small size of the project. There will be no displacement resulting from this new construction project on the site of an abandoned shopping mall.	
COMMUNITY FACILITIES AND SERVICES			
Educational and Cultural Facilities (Access and Capacity)	2	The project site is located within the City of Hazard. The Hazard Independent School District has one elementary school, one middle school, and one high school which are all located within two miles of the project site. The project site is also located near Hazard Community & Technical College campuses, Lindsey Wilson College, the University Center of the Mountains, a branch of Eastern Kentucky University, and a Galen College of Nursing campus. Due to the small size of the project, it will not negatively impact educational facilities. Cultural facilities that Hazard and Perry County have to offer include: Buckhorn Lake State Park; Carr Creek State Park Buckhorn Lake Area Presbyterian Church Log Cathedral; the Art of the Mountains Quilt Trail; the Challenger Learning Center of Kentucky; the Mother Goose House; the Bobby Davis	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
LAND DEVELOPMENT			
		Memorial Park & Museum; and the Leatherwood Memorial Park and Recreation Area and Brashearville Battle of Leatherwood Site. Outdoor activities include: hiking; camping; hunting; boating; fishing; cycling; and ATV trails. .	
Commercial Facilities (Access and Proximity)	2	The project site is located within the City of Hazard. The project site is 1/4 mile from Main Street, which is Hazard's primary downtown commercial corridor. There are abundant commercial services throughout the city, with shopping centers located off Hal Rogers Parkway KY-15, and KY-80 in addition to the commercial facilities found in the downtown core	
Health Care / Social Services (Access and Capacity)	2	The project site is a 3.8-mile drive from the Appalachian Regional Healthcare Hazard Regional Medical Center, a large hospital facility with associated services. Health care, government, and social services are also located in downtown Hazard. Due to the small size of the project, it will have no impact on health care and social services capacity.	
Solid Waste Disposal and Recycling (Feasibility and Capacity)	2	The project site is located within the City of Hazard with access to adequate solid waste services provided by Rumpke Waste & Recycling.	
Waste Water and Sanitary Sewers	2	The City of Hazard will install water, sanitary sewer, storm	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
LAND DEVELOPMENT			
(Feasibility and Capacity)		sewer, road, and curb infrastructure prior to selling the property to Housing Development Alliance for the new construction of 15 units of single-family detached housing. Sewer services are provided by the City of Hazard. Hazard's sewage treatment system has recently undergone a nearly complete transformation with the addition of new equipment and a recent facility expansion and has more than sufficient capacity to accommodate the addition of 15 units of single-family detached housing to the system.	
Water Supply (Feasibility and Capacity)	2	The City of Hazard will install water, sanitary sewer, storm sewer, road, and curb infrastructure prior to selling the property to Housing Development Alliance for the new construction of 15 units of single-family detached housing. Water services are provided by the City of Hazard, which has a customer base of approximately 6,500, including many who live beyond the corporate limits of the city. Hazard's water supplies are treated using equipment of the highest standards to make the water potable (safe to drink) and palatable (aesthetically pleasing) and to ensure an adequate supply of water to meet the needs of	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
LAND DEVELOPMENT			
		the community at a reasonable cost. The water treatment and delivery system more than sufficient capacity to accommodate the addition of 15 units of single-family detached housing.	
Public Safety - Police, Fire and Emergency Medical	2	The project site is located within the City of Hazard. It is a 2.1-mile drive from the Hazard Police Department and a 4.2-mile drive from Kentucky State Police Post 13. The Hazard Fire Department, also a 2.1-mile drive from the project site, provides Emergency Medical Services (EMS) and fire protection.	
Parks, Open Space and Recreation (Access and Capacity)	2	Recreational resources easily accessible from the project site include: Buckhorn Lake State Park; Carr Creek State Park, the Bobby Davis Memorial Park & Museum; the Leatherwood Memorial Park and Recreation Area and Brashearville Battle of Leatherwood Site; Neace Gorman Park; the Perry Parks Trailhead; Memory Lane Memorial Tree Trail; Triangle Park; the River Arts Greenway; the Peace Garden; and the Redbird District of Daniel Boone National Forest. Outdoor activities include hiking; camping; hunting; boating; fishing; cycling and ATV trails. Due to the small size of the project, it will have	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
LAND DEVELOPMENT			
		no impact on the capacity recreational facilities.	
Transportation and Accessibility (Access and Capacity)	2	LKLP Community Action Council offers transportation services for a minimal fee.	
NATURAL FEATURES			
Unique Natural Features /Water Resources	2	There are no unique agricultural lands present on the project site. The project site is near the North Fork Kentucky River and Walker Branch. The City of Hazard will install storm and sanitary sewer infrastructure on the project site prior to Housing Development Alliance acquiring the property for the new construction of 15 units of single-family detached housing. Best management practices will be utilized to reduce runoff from project construction activities into nearby waters. The proposed project will not create or contribute runoff water that would exceed the capacity of existing or planned storm water* drainage systems or provide substantial additional sources of polluted runoff that will impact the nearby waterways.	
Vegetation / Wildlife (Introduction, Modification, Removal, Disruption, etc.)	2	There is no unique vegetation or wildlife on the site, which is an abandoned shopping center.	
Other Factors	2	None.

List of Permits Obtained:

The City of Hazard must approve the final plat map for the project prior to granting building, plumbing, and electrical permits for each individual unit to be constructed. No other permits or approvals are necessary.

Public Outreach [24 CFR 58.43]:

The Housing Development Alliance, Inc (HOA) has a four-county CHOO service area. In the past year, HDA has done outreach targeting all four counties that advertises their New Home Building program, their Homeowner Repair program, and promotes their commitment to Fair Housing. This outreach is done primarily over social media (Facebook, Twitter, and Instagram), as well as through participation in conferences, fairs, and other community events. The public will be notified about the Combined Notice of Finding of No Significant Impact (FONSI) and Notice of Intent to Request Release of Funds (NOIRROF) via publication of a classified advertisement in the Hazard Herald on June 25, 2020. Public comment will be accepted for 15 days following the publication of the Hazard Herald classified ad with the public comment period ending July 10, 2020. The Environmental Review Record (ERR) for this project will also made available for public review during the comment period via electronic file available for download at www.housingdevelopmentalliance.org and via a physical copy at the office of Housing Development Alliance at 2871 North Main Street, Hazard, KY 41701. The physical copy will be available for public examination and copying, upon request, between the hours of 9:00 A.M. and 4:00 P.M. Public comments are to be submitted via US Mail to Kentucky Housing Corporation, ATTN: Curtis Stauffer, 1231 Louisville Road, Frankfort, KY 40601 or via email to cstauffer@kyhousing.org.

Cumulative Impact Analysis [24 CFR 58.32]:

There are no mitigating environmental factors resulting from the proposed housing construction project. The project will benefit the City of Hazard and Perry County by creating 15 new, safe, decent, affordable homeownership units that will help address the community's great need for additional affordable single-family housing. It will do so on the site of an abandoned shopping center that was demolished by the City of Hazard prior to the acquisition of the property by Housing Development Alliance (HDA). The City's demolition project addressed an existing on-site environmental factor by removing asbestos and lead-based paint containing materials via the demolition of the abandoned shopping center project site prior to HDA's acquisition of the property and development of the housing units.

Alternatives [24 CFR 58.40(e); 40 CFR 1508.9]

1) No action: leave the area as it is with no corrective action. It is likely that the property would remain vacant with minimal use without this project, as Housing Development Alliance has pledged to acquire the property from the City of Hazard for

redevelopment following the City's demolition of an abandoned shopping center on site and installation of road, curb, sewer, and water infrastructure. Furthermore, the City of Hazard and Perry County need more affordable housing and redevelopment of the project site will eliminate community blight that negatively impacts nearby residents. 2) Acquire a different piece or property: the project location is ideal for the project as the City of Hazard will prepare it for the new construction of 15 units of affordable single-family detached housing prior to selling it to the Housing Development Alliance. Furthermore, there are few sites within the City of Hazard that can accommodate the new construction of 15 housing units. 3) Proceed with Project: this is the best use of the project site, which is being prepared by the City of Hazard and has been rezoned for residential use specifically for this project.

No Action Alternative [24 CFR 58.40(e)]

The ''no action'' alternative is unacceptable as there is a critical need for affordable single- family housing within the City of Hazard and Perry County. The move to an alternate site is also unacceptable because City of Hazard has rezoned the project site for residential use specifically for this project and will install infrastructure on the selected project site to prepare it for the new construction of 15 units of affordable single-family detached housing prior to selling it to the Housing Development Alliance. Furthermore, there are few sites within the City of Hazard that can accommodate the new construction of 15 housing units. This project will also benefit the community by redeveloping a formerly blighted site, positively impacting existing nearby residents.

Summary of Findings and Conclusions:

There are no mitigating environmental factors resulting from the proposed housing construction project. The project will benefit the City of Hazard and Perry County by creating 15 new, safe, decent, affordable homeownership units that will help address the community's great need for additional affordable single-family housing. It will do so on the site of an abandoned shopping center that was demolished by the City of Hazard prior to the acquisition of the property by Housing Development Alliance. The City's demolition project addressed an existing on-site environmental factor by removing asbestos and lead-based paint containing materials from the project site prior to the development of the housing units.

Mitigation Measures and Conditions [CFR 1505.2(c)]:

Summarized below are all mitigation measures adopted by the Responsible Entity to reduce, avoid or eliminate adverse environmental impacts and to avoid non-compliance or non-conformance with the above-listed authorities and factors. These measures/conditions must be incorporated into project contracts, development agreements and other relevant documents. The staff responsible for implementing and monitoring mitigation measures should be clearly identified in the mitigation plan.

Law, Authority, or Factor	Mitigation Measure or Condition	Comments on Completed Measures	Complete
Contamination and Toxic Substances	Prior to selling the project site to Housing Development Alliance, Inc. (HDA) for the construction of 15 units of detached single-family housing, the City of Hazard demolished the abandoned Hopper Circle Shopping Center, removed all demolition waste, and will install road, sidewalk, sewer, and water infrastructure. The demolition/infrastructure project will mitigate identified on-site contaminants and toxic substances prior to the initiation of the HDA new homebuyer construction project. The City of Hazard assessed existing on-site contamination risks using inspections and analyses by the Smith Management Group (SMG), an environmental consulting firm, which found non-friable asbestos and trace amounts of lead-based paint. (See attached reports.)	N/A	
Hazards and Nuisances including Site Safety and Site-Generated Noise	The City of Hazard demolished the abandoned Hopper Circle Shopping Center before March 31, 2020 and prior to Housing Development Alliance's acquisition of the project site. The City's demolition complied with all applicable environmental regulations for asbestos and lead-based paint. All demolished materials were disposed of at the Laurel Ridge Landfill (a.k.a. Lily Landfill), a location approved for disposal of such materials by the Kentucky Department of Air Quality. Asbestos and lead-based paint containing materials were removed from the project site via the demolition and disposal activities and will not pose a risk to future residents of the project area. No further mitigation is necessary.	N/A	

Permits, reviews and approvals	The City of Hazard must approve the final plat map for the project prior to granting building, plumbing, and electrical permits for each individual unit to be constructed. No other permits or approvals are necessary.	N/A	

Mitigation Plan

The abandoned Hopper Circle Shopping Center contained non-friable asbestos and trace amounts of lead-based paint. The City of Hazard mitigated these toxic substances prior to selling the property to HDA. As stated in a letter from Hazard City Manager Derrick Hall to R. Scott McReynolds, Executive Director of HDA, dated March 31, 2020, "City of Hazard and its Contractors followed procedures mandated by the Kentucky Division of Air Quality concerning the removal of the demolition debris containing asbestos and traces of lead-based paint from the project site, disposal of those materials in an approved waste facility for those toxic substances, and compliance with all applicable regulations governing demolition and disposal of asbestos and lead based paint containing materials by the demolition contractor." The demolition waste was disposed in the Laurel Ridge Landfill (a.k.a. Lily Landfill), an approved location for the disposal of such materials. No further mitigation is necessary.

APPENDIX A: Related Federal Laws and Authorities

Airport Hazards

General policy	Legislation	Regulation
It is HUD's policy to apply standards to prevent incompatible development around civil airports and military airfields.		24 CFR Part 51 Subpart D

1. To ensure compatible land use development, you must determine your site's proximity to civil and military airports. Is your project within 15,000 feet of a military airport or 2,500 feet of a civilian airport?

✓ **No**

Based on the response, the review is in compliance with this section. Document and upload the map showing that the site is not within the applicable distances to a military or civilian airport below

Yes

Screen Summary

Compliance Determination

The project site is not within 15,000 feet of a military airport or 2,500 feet of a civilian airport. The project is in compliance with Airport Hazards requirements. The project site is 8.66 miles from Wendell H. Ford Airport, the nearest airport.

Coastal Barrier Resources

General requirements	Legislation	Regulation
HUD financial assistance may not be used for most activities in units of the Coastal Barrier Resources System (CBRS). See 16 USC 3504 for limitations on federal expenditures affecting the CBRS.	Coastal Barrier Resources Act (CBRA) of 1982, as amended by the Coastal Barrier Improvement Act of 1990 (16 USC 3501)	

This project is located in a state that does not contain CBRA units. Therefore, this project is in compliance with the Coastal Barrier Resources Act.

Compliance Determination

This project is located in a state that does not contain CBRS units. Therefore, this project is in compliance with the Coastal Barrier Resources Act.

Supporting documentation

Are formal compliance steps or mitigation required?

Yes

✓ No

Flood Insurance

General requirements	Legislation	Regulation
Certain types of federal financial assistance may not be used in floodplains unless the community participates in National Flood Insurance Program and flood insurance is both obtained and maintained.	Flood Disaster Protection Act of 1973 as amended (42 USC 4001-4128)	24 CFR 50.4(b)(1) and 24 CFR 58.6(a) and (b); 24 CFR 55.1(b).

1. Does this project involve financial assistance for construction, rehabilitation, or acquisition of a mobile home, building, or insurable personal property?

No. This project does not require flood insurance or is excepted from flood insurance.

✓ Yes

2. Upload a FEMA/FIRM map showing the site here:

FIRMETTE_HDA-Allais.pdf

The Federal Emergency Management Agency (FEMA) designates floodplains. The FEMA Map Service Center provides this information in the form of FEMA Flood Insurance Rate Maps (FIRMs). For projects in areas not mapped by FEMA, use the best available information to determine floodplain information. Include documentation, including a discussion of why this is the best available information for the site. Provide FEMA/FIRM floodplain zone designation, panel number, and date within your documentation.

Is the structure, part of the structure, or insurable property located in a FEMA-designated Special Flood Hazard Area?

✓ No

Based on the response, the review is in compliance with this section.

Yes

Screen Summary
Compliance Determination

The structure or insurable property is not located in a FEMA-designated Special Flood Hazard Area. While flood insurance may not be mandatory in this instance, HUD recommends that all insurable structures maintain flood insurance under the National Flood Insurance Program (NFIP). The project is in compliance with flood insurance requirements. The FIRMette Map for the project site shows that it is adjacent to a floodplain, but is in an area of minimal flood hazard (map panel #21193CO93D, effective 8/2/2006).

Coastal Zone Management Act

General requirements	Legislation	Regulation
Federal assistance to applicant agencies for activities affecting any coastal use or resource is granted only when such activities are consistent with federally approved State Coastal Zone Management Act Plans.	Coastal Zone Management Act (16 USC 1451-1464), particularly section 307(c) and (d) (16 USC 1456(c) and (d))	15 CFR Part 930

This project is located in a state that does not participate in the Coastal Zone Management Program. Therefore, this project is in compliance with the Coastal Zone Management Act.

Screen Summary

Compliance Determination

This project is located in a state that does not participate in the Coastal Zone Management Program. Therefore, this project is in compliance with the Coastal Zone Management Act.

Supporting documentation

Are formal compliance steps or mitigation required?

Yes

✓ No

Contamination and Toxic Substances

General requirements	Legislation	Regulations
It is HUD policy that all properties that are being proposed for use in HUD programs be free of hazardous materials, contamination, toxic chemicals and gases, and radioactive substances, where a hazard could affect the health and safety of the occupants or conflict with the intended utilization of the property.		24 CFR 58.5(i)(2) 24 CFR 50.3(i)

1. Evaluate the site for contamination. Were any on-site or nearby toxic, hazardous, or radioactive substances found that could affect the health and safety of project occupants or conflict with the intended use of the property?

No

✓ Yes

Check here if an ASTM Phase I Environmental Site Assessment (ESA) report was utilized. [Note: HUD regulations does not require an ASTM Phase I ESA report for single family homes]

2. Mitigation

Document and upload the mitigation needed according to the requirements of the appropriate federal, state, tribal, or local oversight agency. If the adverse environmental effects cannot be mitigated, then HUD assistance may not be used for the project at this site.

Can adverse environmental impacts be mitigated?

Adverse environmental impacts cannot feasibly be mitigated.

✓ Yes, adverse environmental impacts can be eliminated through mitigation. Document and upload all mitigation requirements below.

3. Describe how compliance was achieved in the text box below. Include any of the following that apply: State Voluntary Clean-up Program, a No Further Action letter, use of engineering controls, or use of institutional controls.

Prior to selling the project site to Housing Development Alliance, Inc. (HDA) for the construction of 15 units of detached single-family housing, the City of Hazard demolished the abandoned Hopper Circle Shopping Center, removed all demolition waste, and will install road, sidewalk, sewer, and water infrastructure. The demolition/infrastructure project will mitigate identified on-site contaminants and toxic substances prior to the initiation of the HDA new homebuyer construction project. The City of Hazard assessed existing on-site contamination risks using inspections and analyses by the Smith Management Group (SMG), an environmental consulting firm, which found non-friable asbestos and trace amounts of lead-based paint. (See attached reports.)

If a remediation plan or clean-up program was necessary, which standard does it follow?

- ✓ Complete removal
- Risk-based corrective action (RBCA)
- Other

Screen Summary

Compliance Determination

On-site or nearby toxic, hazardous, or radioactive substances were found that could affect the health and safety of project occupants or conflict with the intended use of the property. The adverse environmental impacts can be mitigated. With mitigation, identified in the mitigation section of this review, the project will be in compliance with contamination and toxic substances requirements. Prior to selling the project site to Housing Development Alliance, Inc. (HDA) for the construction of 15 units of detached single-family housing, the City of Hazard demolished the abandoned Hopper Circle Shopping Center, removed all demolition waste, and will install road, sidewalk, sewer, and water infrastructure. Demolition and demolition waste removal was completed before March 31, 2020. As documented in assessment reports by Smith Management Group conducted in 2017, the abandoned Hopper Circle Shopping Center contained non-friable asbestos and trace amounts of lead-based paint. The City of Hazard mitigated these toxic substances prior to the forthcoming sale of the property to HDA. As stated in a letter from Hazard City Manager Derrick Hall to R. Scott McReynolds,

Executive Director of HDA, dated March 31, 2020, "City of Hazard and its Contractors followed procedures mandated by the Kentucky Division of Air Quality concerning the removal of the demolition debris containing asbestos and traces of lead-based paint from the project site, disposal of those materials in an approved waste facility for those toxic substances, and compliance with all applicable regulations governing demolition and disposal of asbestos and lead based paint containing materials by the demolition contractor." The demolition waste was disposed in the Laurel Ridge Landfill in Lily, KY (referred to as "the Lily Landfill in Mr. Hall's letter) or with metals recycled at Dixie Recycling and Wright Recycling, as demonstrated by transfer tickets attached to Mr. Hall's letter. Debris disposal was completed in February 2020. Laurel Ridge Landfill (see attached printout of their "Services" webpage) is one of seven Kentucky Energy and Environment Cabinet Solid Waste Branch-certified Construction and Demolition Debris Landfills greater than one acre, as seen in the attached map. Mr. Hall's letter to HDA also stated "Of course, all demolition activities will be complete well before any sale of lots to you occurs." A NEPAssist search found 9 EPA-regulated facilities within a 3,000-foot radius of the project site. ECHO reports demonstrated that 8 of the 9 facilities had no violations within the last 12 quarters. The ECHO report for Dixie Recycling shows that the facility is in "Significant/Category I Noncompliance" for "Failure to Report DMR - Not Received" from the fourth quarter of Federal Fiscal Year 2017 through the fourth quarter of Federal Fiscal Year 2019 and an additional violation in the first quarter of Federal Fiscal Year 2020 for a pH limit violation. On February 20, 2020, Kentucky Housing Corporation initiated consultation with the Division of Waste Management of the Kentucky Energy and Environment Cabinet to determine if Dixie Recycling's noncompliance poses a threat to residents living 1,531 feet away at the site of the proposed Allais Community Subdivision. In an email dated February 21, 2020, Edward Winner, PhD, Assistant Director of the Division of Waste Management, stated "If the Division of Waste Management had information in terms of sampling data, etc. that indicated that Dixie Recycling was a danger to human health to the surrounding properties the Division would take action. By all appearances, Dixie Recycling is a typical metal recycler that does not pose a human health risk to surrounding properties."

Office of the City Manager
Derrick Hall

March 31, 2020

Mr. Scott McReynolds
Housing Development Alliance
Executive Director
2871 North Main Street
Hazard, KY 41701

RE: Demolition on Allais Property

Dear Mr. McReynolds:

As discussed previously, the City of Hazard and its Contractors followed procedures mandated by the Kentucky Division of Air Quality concerning the removal of the demolition debris containing asbestos and traces of lead-based paint from the project site, disposal of those materials in an approved waste facility for those toxic substances, and compliance with all applicable regulations governing demolition and disposal of asbestos and lead based paint containing materials by the demolition contractor.

Important personnel for this demolition were:

Project Manager- Hank Spaulding, P.E., H.A. Spalding Engineers, Inc.
Demolition Contractor- Marty Wooten, Marty's Construction, Inc.

The attached Contract contains the proposed timeline for this work (all demolition work is complete). As shown on the attached transfer tickets the disposal facility was Lily Landfill.

Of course, all demolition activities will be complete well before any sale of lots to you occurs.

Please let me know if I can provide any additional information.

Sincerely:

CITY OF HAZARD, KENTUCKY

Derrick Hall

Derrick Hall, City Manager

AGREEMENT
BETWEEN OWNER AND CONTRACTOR
FOR CONSTRUCTION CONTRACT (STIPULATED PRICE)
FUNDING AGENCY EDITION

THIS AGREEMENT is by and between City of Hazard, Kentucky ("Owner") and Marty's Construction, Inc. ("Contractor").

Owner and Contractor, in consideration of the mutual covenants hereinafter set forth, agree as follows:

ARTICLE 1 – Work

1.01 Contractor shall complete all Work as specified or indicated in the Contract Documents. The Work is generally described as follows:
Allais Project – HDA Development, Demolition

ARTICLE 2 – THE PROJECT

2.01 The Project for which the Work under the Contract Documents may be the whole or only a part is generally described as follows:
Allais Project – HDA Development, Demolition

ARTICLE 3 – ENGINEER

3.01 The Project has been designed by H.A. Spalding Engineers, Inc. (Engineer), who is to act as Owner's representative, assume all duties and responsibilities, and have the rights and authority assigned to Engineer in the Contract Documents in connection with the completion of the Work in accordance with the Contract Documents.

ARTICLE 4 – CONTRACT TIMES

4.01 Time of the Essence

All time limits for Milestones, if any, Substantial Completion, and completion and readiness for final payment as stated in the Contract Documents are of the essence of the Contract.

4.02 Days to Achieve Substantial Completion and Final Payment

The Work will be substantially completed within **45 days** after the date when the Contract Times commence to run as provided in Paragraph 2.03 of the General Conditions, and completed and ready for final payment in accordance with Paragraph 14.07 of the General Conditions within 30 days after the date when the Contract Times commence to run.

4.03 Liquidated Damages

Contractor and Owner recognize that time is of the essence of this Agreement and that Owner will suffer financial loss if the Work is not completed within the times specified in Paragraph 4.02 above, plus any extensions thereof allowed in accordance with Article 12 of the General Conditions. The parties also recognize the delays, expense, and difficulties involved in proving in a legal or arbitration proceeding the actual loss suffered by Owner if the Work is not completed on time. Accordingly, instead of requiring any such proof, Owner and Contractor agree that as liquidated damages for delay (but not as a penalty), Contractor shall pay Owner **$500** for each day that expires after the time specified in Paragraph 4.02 for Substantial Completion until the Work is substantially complete. After Substantial Completion, if Contractor shall neglect, refuse, or fail to complete the remaining Work within the Contract Time or any proper extension thereof granted by Owner, Contractor shall pay Owner $500 for each day that expires after the time specified in Paragraph 4.02 for completion and readiness for final payment until the Work is completed and ready for final payment.

ARTICLE 5 – CONTRACT PRICE

5.01 Owner shall pay Contractor for completion of the Work in accordance with the Contract Documents an amount in current funds equal to the sum of the amounts determined pursuant to Paragraphs 5.01.A, 5.01.B, and 5.01.C below:
For all Work a Lump Sum of:

Eighty Thousand Dollars and no cents ($80,000.00)
(words) (figure)

All specific cash allowances are included in the above price and have been computed in accordance with paragraph 11.02 of the General Conditions.

For all Unit Price Work, an amount equal to the sum of the established unit price for each separately identified item of Unit Price Work times the estimated quantity of that item as indicated in this paragraph 5.01.B:

As provided in Paragraph 11.03 of the General Conditions, estimated quantities are not guaranteed, and determinations of actual quantities and classifications are to be made by Engineer as provided in Paragraph 9.07 of the General Conditions. Unit prices have been computed as provided in Paragraph 11.03 of the General Conditions.

~~ESTIMATED TOTAL OF ALL UNIT PRICE WORK~~ $ _____ $(_____)
(use words) (figure)

For all Work, at the prices stated in Contractor's Bid, attached hereto as an exhibit.

ARTICLE 6 – PAYMENT PROCEDURES

6.01 Submittal and Processing of Payments
Contractor shall submit Applications for Payment in accordance with Article 14 of the General Conditions. Applications for Payment will be processed by Engineer as provided in the General Conditions.

6.02 Progress Payments; Retainage
Owner shall make progress payments on account of the Contract Price on the basis of Contractor's Applications for Payment on or about the 30th day of each month during performance of the Work as provided in Paragraphs 6.02.A.1 and 6.02.A.2 below. All such payments will be measured by the schedule of values established as provided in Paragraph 2.07.A of the General Conditions (and in the case of Unit Price Work based on the number of units completed) or, in the event there is no schedule of values, as provided in the General Requirements:

Prior to Substantial Completion, progress payments will be made in an amount equal to the percentage indicated below but, in each case, less the aggregate of payments previously made and less such amounts as Engineer may determine or Owner may withhold, including but not limited to liquidated damages, in accordance with Paragraph 14.02 of the General Conditions:

95 percent of Work completed (with the balance being retainage); and

95 percent of cost of materials and equipment not incorporated in the Work (with the balance being retainage).

Upon Substantial Completion, Owner shall pay an amount sufficient to increase total payments to Contractor to 95 percent of the Work completed, less such amounts as Engineer shall determine in accordance with Paragraph 14.02.B.5 of the General Conditions.

6.03 Final Payment
Upon receipt of the final Application for Payment accompanied by Engineer's recommendation of payment in accordance with Paragraph 14.07 of the General Conditions, Owner shall pay Contractor as provided in the General Conditions the remainder of

the Contract Price as recommended by Engineer as provided in specification, less any sum Owner is entitled to set off against Engineer's recommendation, including but not limited to liquidated damages.

ARTICLE 7 – INTEREST

7.01 All moneys not paid when due as provided in the General Conditions shall bear interest at the maximum legal rate.

ARTICLE 8 – CONTRACTOR'S REPRESENTATIONS

8.01 In order to induce Owner to enter into this Agreement Contractor makes the following representations:
Contractor has examined and carefully studied the Contract Documents and the other related data identified in the Bidding Documents.

Contractor has visited the Site and become familiar with and is satisfied as to the general, local, and Site conditions that may affect cost, progress, and performance of the Work.

Contractor is familiar with and is satisfied as to all federal, state, and local Laws and Regulations that may affect cost, progress, and performance of the Work.

Contractor has carefully studied all: (1) reports of explorations and tests of subsurface conditions at or contiguous to the Site and all drawings of physical conditions in or relating to existing surface or subsurface structures at or contiguous to the Site (except Underground Facilities) which have been identified in the Supplementary Conditions as provided in the General Conditions and (2) reports and drawings of a Hazardous Environmental Condition, if any, at the Site which has been identified in the Supplementary Conditions as provided in the General Conditions.

Contractor has obtained and carefully studied (or assumes responsibility for doing so) all examinations, investigations, explorations, tests, studies, and data concerning conditions (surface, subsurface, and Underground Facilities) at or contiguous to the Site which may affect cost, progress, or performance of the Work or which relate to any aspect of the means, methods, techniques, sequences, and procedures of construction to be employed by Contractor, including any specific means, methods, techniques, sequences, and procedures of construction expressly required by the Bidding Documents, and safety precautions and programs incident thereto.

Contractor does not consider that any further examinations, investigations, explorations, tests, studies, or data are necessary for the performance of the Work at the Contract Price, within the Contract Times, and in accordance with the other terms and conditions of the Contract Documents.

Contractor is aware of the general nature of work to be performed by Owner and others at the Site that relates to the Work as indicated in the Contract Documents.

Contractor has correlated the information known to Contractor, information and observations obtained from visits to the Site, reports and drawings identified in the Contract Documents, and all additional examinations, investigations, explorations, tests, studies, and data with the Contract Documents.

Contractor has given Engineer written notice of all conflicts, errors, ambiguities, or discrepancies that Contractor has discovered in the Contract Documents, and the written resolution thereof by Engineer is acceptable to Contractor.

The Contract Documents are generally sufficient to indicate and convey understanding of all terms and conditions for performance and furnishing of the Work.

ARTICLE 9 – CONTRACT DOCUMENTS

9.01 Contents
The Contract Documents consist of the following:

This Agreement (pages 26 to 30, inclusive).

Performance bond (attached).

Payment bond (attached).

Other bonds (pages _____ to _____, inclusive).

_____ (pages _____ to _____, inclusive).

_____ (pages _____ to _____, inclusive).

_____ (pages _____ to _____, inclusive).

General Conditions (pages 39 to 60, inclusive).

Supplementary Conditions (pages 61 to 76, inclusive).

Specifications as listed in the table of contents of the Project Manual.

Drawings consisting of 5 sheets with each sheet bearing the following general title: Allais Project – HDA Development, Demolition.

Addenda (numbers _____ to _____, inclusive).

Exhibits to this Agreement (enumerated as follows):

a. Contractor's Bid (pages 5 to 8, inclusive).

b. Documentation submitted by Contractor prior to Notice of Award (pages _____ to _____, inclusive).

c. _____.

The following which may be delivered or issued on or after the Effective Date of the Agreement and are not attached hereto:

Notice to Proceed (pages _____ to _____, inclusive).

Work Change Directives.

Change Order(s).

The documents listed in Paragraph 9.01.A are attached to this Agreement (except as expressly noted otherwise above).

There are no Contract Documents other than those listed above in this Article 9.

The Contract Documents may only be amended, modified, or supplemented as provided in Paragraph 3.04 of the General Conditions.

ARTICLE 10 – MISCELLANEOUS

10.01 Terms

Terms used in this Agreement will have the meanings stated in the General Conditions and the Supplementary Conditions.

10.02 Assignment of Contract

No assignment by a party hereto of any rights under or interests in the Contract will be binding on another party hereto without the written consent of the party sought to be bound; and, specifically but without limitation, moneys that may become due and moneys that are due may not be assigned without such consent (except to the extent that the effect of this restriction may be limited by law), and unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under the Contract Documents.

10.03 Successors and Assigns

Owner and Contractor each binds itself, its partners, successors, assigns, and legal representatives to the other party hereto, its partners, successors, assigns, and legal representatives in respect to all covenants, agreements, and obligations contained in the Contract Documents.

10.04 Severability

Any provision or part of the Contract Documents held to be void or unenforceable under any Law or Regulation shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon Owner and Contractor, who agree that the Contract Documents shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

10.05 Other Provisions

IN WITNESS WHEREOF, Owner and Contractor have signed this Agreement in four copies. One counterpart each has been delivered to Owner, Contractor, Engineer, and Agency. All portions of the Contract Documents have been signed, initialed, or identified by Owner and Contractor or identified by Engineer on their behalf. This Agreement is dated 1/8/20 This Agreement shall not be effective unless and until Agency's designated representative concurs.

Services

The Laurel Ridge Landfill is a modern municipal solid waste disposal facility permitted by the Kentucky Environmental Protection Agency and is in full compliance with rules and regulations set forth by each of the divisions within the agency. The site accepts municipal solid wastes, construction/demolition wastes and special wastes with proper approval. Special waste approvals can typically be turned around in 24 hours.

We can provide transportation and disposal services though our East Kentucky hauling district at 866-428-4208 for municipal solid waste, industrial waste, and special wastes including asbestos, and non-hazardous contaminated soils. As well as transportation and disposal services for construction and demolition wastes including transportation of large demolition projects using tractor-trailer applications.

We are very proud of our facility and we welcome the opportunity to address your disposal needs. Our focus is on customer service and safety. We strive to achieve easy and rapid access in and out of the facility. We feel certain that we will exceed your expectations of your solid waste disposal requirements.

LAUREL RIDGE LANDFILL
A Waste Connections Company

The Laurel Ridge Landfill is a modern municipal solid waste disposal facility permitted by the Kentucky Environmental Protection Agency and is in full compliance with rules and regulations set forth by each of the divisions within the agency.

SUBJECT: Pre-Demolition Asbestos Sampling Summary Report
Building Located at One Hopper Circle
Hazard, Kentucky
SMG Project # 2017-6291B

Dear Mr. Wade:

Introduction

Smith Management Group (SMG) has completed pre-demolition asbestos sampling at the former strip mall/abandoned structure located at One Hopper Circle in Hazard, Kentucky. The work was performed in accordance with our Engagement Letter dated May 26, 2017 and executed on June 13, 2017. SMG completed the building inspection and site sampling work on July 10-11, 2017.

Eighteen (18) samples (including sub-samples/layers) were taken from suspected asbestos-containing building materials identified within the interior and exterior of the approximately 35,000 square foot one-story abandoned former commercial strip mall building. The building is in poor condition with a significantly damaged interior, debris throughout and possible structural damage. Each of the samples collected were submitted for asbestos analysis by Polarized Light Microscopy (PLM). Of the eighteen (18) total samples collected, one (1) was found to contain asbestos. Sample number HC-2(B) was collected from the floor tile black mastic underlying non-asbestos containing 12" by 12" floor tile on concrete in the east section of the building. The identified non-friable asbestos-containing construction mastic comprises approximately 6,500 square feet and is in good condition.

The asbestos assessment and sampling was completed by Sarah Carty and Kevin Chaplin, EPA approved and Kentucky licensed building inspectors representing SMG. Site sampling activities were managed by SMG in accordance with EPA and OSHA recommended procedures for sampling suspected or presumed asbestos-containing material (ACM).

Following completion of the physical survey, the collected samples were delivered under chain of custody documentation to McCall and Spero Environmental, Inc. McCall and Spero Environmental, Inc. are accredited for bulk sample analysis utilizing Polarized Light Microscopy (PLM) by the National Voluntary Laboratory Accreditation Program (NVLAP).

Table 1 provided within the report describes the sampling results from collected samples. If abatement were to be required for the identified asbestos-containing mastic, SMG has provided an opinion of probable cost for abatement. A photo log is also provided at the end of the report. **Laboratory data and the chain of custody are provided as an attachment.**

Sampling Data

The following table indicates the building material sampled, location, quantity, condition and percent asbestos content, if any.

Table 1 - Asbestos Sampling Data
Abandoned Strip Mall Building – One Hopper Circle
Hazard, KY
Sampling Dates: July 10-11, 2017

Sample ID	Building Material/ Location	Condition	Approximate Quantity	% Asbestos & Type
HC-1	Roofing Material; White drywall-like layer underlying rubber membrane roof	Good	N/A	ND
HC-2(A)	12" by 12" Gray Floor Tile on East End of Bldg.	Partially Damaged	6,500 SF	ND
HC-2(B)	**Black Mastic Underlying 12" by 12" Gray Floor Tile on East End of Bldg.**	**Good**	**6,500 SF**	**3% Chrysotile**
HC-3	Drywall Material – North Wall	Damaged	N/A	ND
HC-4	Ceiling Debris – East End of Bldg.	Damaged	N/A	ND
HC-5	Gray Drywall Glue Compound on NE Block Wall	Damaged	N/A	ND
HC-6	Brown Hard Glue on Back of Drywall, NE Side	Damaged	N/A	ND
HC-7	Drywall – Center Section of Bldg.	Damaged	N/A	ND
HC-8(A)	Center Section of Bldg. – White Portion of Black/White Checkered 12" by 12" Floor Tile	Damaged	N/A	ND
HC-8(B)	Yellow Mastic Underlying Sample HC-8(A)	Good	N/A	ND
HC-9(A)	Black Portion of Floor Tile from 12" by 12" F.T.	Damaged	N/A	ND
HC-9(B)	Tan/Yellow Mastic Underlying Sample HC-9(A)	Good	N/A	ND
HC-10(A)	Center Section/West End 12" by 12" Gray/Beige Floor Tile Overlying Another Layer of Tile	Damaged	N/A	ND

N/A - Not Applicable; ND - None Detected; SF- Square Feet

Conclusions

The purpose of the work was to meet National Emission Standards for Hazardous Air Pollutants (NESHAP) requirements and facilitate the planned demolition of the approximately 35,000 square foot former commercial strip mall.

Based on SMG's inspectors' on-site observations and a review of the sampling and analytical data, the following is a summary of ACM identified for the purposes of initiating abatement activities (if required) and eventual demolition of the facility:

Friable Asbestos-Containing Material (Friable ACM)

No friable ACM was identified within the building. "Friable" means that the material, when dry, may be broken, crumbled, pulverized, or reduced to powder by hand pressure and includes previously non-friable material that has become damaged to the extent when dry can be crumbled, pulverized, or reduced to powder by hand pressure.

Non-Friable ACM

Asbestos-containing black construction mastic (Sample HC-2B) was identified underlying non-asbestos gray 12" by 12" floor tile located in the far east section of the building. The mastic is adhered to the underlying concrete substrate and in some cases to the back of the overlying floor tile. If the building is going to be demolished, the asbestos-containing material within that building could require abatement prior to initiating demolition activities. During demolition or renovation activities the non-friable mastic could be disturbed causing the material to become friable and subject to NESHAP requirements as a Regulated Asbestos-Containing Material (RACM).

EPA classifies RACM as any friable asbestos material or any non-friable asbestos material that has become friable, or any non-friable ACM that has the potential for becoming friable during the course of renovation or demolition activities. Under the NESHAPs and Kentucky's Division of Air Quality (DAQ), RACM;

(a) Friable asbestos material,
(b) Category I nonfriable ACM that has become friable,
(c) Category I nonfriable ACM that will be or has been subjected to sanding, grinding, cutting, or abrading, or
(d) Category II nonfriable ACM that has a high probability of becoming or has become crumbled, pulverized, or reduced to powder by the forces expected to act on the material in the course of demolition or renovation operations regulated by this regulatory subpart.

The identified asbestos-containing black mastic identified in the East section of the building is classified under NESHAP as a Category I non-friable ACM.

If abatement was to occur, OSHA regulates the non-friable black mastic as "Class II" asbestos work which must meet the requirements of "Class II" asbestos work described in 29 CFR 1926.1101 which states "Class II asbestos work means activities involving the removal of ACM which is not thermal system insulation or surfacing material. This includes, but is not limited to, the removal of asbestos-containing wallboard, floor tile and sheeting, roofing and siding shingles, and construction mastics." Any project

involving a threshold amount of RACM (260 linear feet on pipes and 160 square feet on other facility components) must be performed by a registered asbestos abatement contractor.

In Kentucky, the DAQ is the primary agency which enforces state asbestos regulations as well as the federal NESHAP rule (40 CFR 61 Subpart M). The general requirements of the state of Kentucky and federal asbestos regulations as applied to demolition and renovation operations are as follows:

1. Prior to any demolition or renovation activity, building owners must ensure that a thorough inspection of the facility or affected part is conducted by a DAQ licensed asbestos inspector to identify and quantify any ACM.

2. For any demolition and for renovations involving reportable amounts of RACM a written notice, on state approved forms, must be postmarked or delivered to the DAQ at least 10 working days (Monday through Friday) prior to demolition or disturbing RACM. Reportable amounts of RACM are at least 260 linear feet of pipes, or 160 square feet on other facility components or 35 cubic feet where the material could not be measured before stripping. There are provisions eliminating the prior notice for certain emergency renovations or demolitions.

3. All RACM that will be impacted by the planned demolition or renovation activity must be removed, handled, and disposed of by a KY DAQ licensed asbestos contractor employing a licensed supervisor and licensed workers. All RACM must be adequately wetted prior to removal and maintained adequately wet until sealed in leak tight containers or wrappings for disposal.

4. After sealing ACM waste in leak tight containers or wrappings, with proper warning labels, the waste must be transported to an approved asbestos disposal site.

As the asbestos-containing mastic identified within the abandoned former strip mall is currently classified as "non-friable", the building could be potentially demolished in place without first abating the mastic as long as the material has not become friable through being subject to "sanding, grinding, cutting, or abrading" which would make the material RACM. Depending on the types of activities occurring at the demolition site, floor tiles and mastic may or may not become subject to the provisions of the asbestos NESHAP rule as enforced in the State of Kentucky. Many of the various demolition techniques used by contractors do not, by themselves, cause Category I non-friable ACM to become RACM. Since ordinary demolition activities do not include the "sanding, grinding, cutting and abrading" of floor tiles and associated mastics that are not in poor condition and have not become friable then the identified mastic in the One Hopper Circle building the identified asbestos-containing mastic would likely be allowed to remain in place during demolition.

The material which contains the applied mastic and/or tiles may need to be disposed of in an approved landfill that accepts asbestos-containing or contaminated waste as well as general construction debris. The DEP's Division of Waste Management, Solid Waste Branch regulates and licenses landfills in Kentucky permitted to accept asbestos waste, as well as packaging and transportation procedures for asbestos waste materials.

Other Suspect Materials & Conditions/Limitations

Inaccessible locations may harbor suspect asbestos-containing materials. SMG has made every effort to identify accessible suspect building materials but there could be hidden or inaccessible building materials with the potential to contain asbestos. Typical suspect materials that are inaccessible can be present in HVAC systems, behind walls and in other miscellaneous structural locations. It is the demolition contractor's responsibility to be aware of demolition activities revealing a suspect building material that has not been previously identified as non-asbestos or asbestos-containing through sampling (or presumed to contain asbestos). Experienced demolition contractors are aware of their responsibility to cease work impacting that material until the material can be properly sampled and identified.

Opinion of Probable Cost - Abatement

It is SMG's opinion that the identified floor tile mastic will likely be allowed to remain in-place during demolition due to the NESHAP and Kentucky provisions regarding non-friable conditions. The building owner or demolition contractor should contact the Kentucky DAQ to confirm this approach prior to submitting their "Notification of Asbestos Abatement/Demolition/Renovation" which must be submitted at least 10 working days prior to starting any asbestos removal, demolition or other work which could disturb identified ACM. Kentucky DAQ has regional offices and the Hazard Region Supervisor is Steven Hall, steven.hall@ky.gov. The office can be reached at (606) 435-6022.

The asbestos abatement opinions of probable cost have been provided for planning purposes only. The quantities provided are approximate estimates only and should be verified by all contractors submitting bids or preparing abatement work for this facility. The numbers presented are based on current market trends and previous experience with similar structures. Again, these estimates of quantities and opinions of probable cost are for planning purposes only and should not be construed as a binding remediation proposal from SMG.

If abatement of the floor tile and mastic is required:
Approximate Quantity – 6,500 Square Feet
Opinion of Probable Cost: $16,500.00 (includes clearing debris off floor area)

SMG appreciates the opportunity to provide our services to you on this project. Should you have any questions on this or any other environmental health and safety matter please do not hesitate to call.

Sincerely,

SMITH MANAGEMENT GROUP

Subject: Analysis of bulk samples for asbestos mineral fibers by Polarized Light Microscopy (PLM) with Dispersion Staining (EPA/600/R-93/116)

RE: MSE-P7127SMG
1 Hopper Circle, Hazard KY Project
SMG# 6291B

Dear Mr. Chaplin:

McCall & Spero Environmental, Inc. has completed the analyses of the bulk samples we received from your offices on July 12, 2017. These samples represent the bulk samples from the 1 Hopper Circle, Hazard KY Project.

The PLM bulk analysis was performed according to the "Method of the Determination of Asbestos in Bulk Building Materials", R. L. Perkins and B. W. Harvey (EPA/600/R-93/116).

The results for the eighteen (18) samples are summarized in the following report. Please note that for samples consisting of two or more distinct components, each component is analyzed and reported individually (EPA 40 CFR Part 61 [FRL-4821-71]).

Thank you for consulting McCall & Spero Environmental, Inc. Should you have any questions concerning these results, please contact our office.

Sincerely,

Kevin R. Bean, B.A.
Laboratory Director

SUBJECT: **Pre-Demolition Lead-based Paint Assessment**
Sampling Summary Report
Abandoned Strip Mall Building – One Hopper Circle
Hazard, KY

Dear Mr. Wade:

Introduction

Smith Management Group (SMG) has completed pre-demolition lead-based paint sampling at the former strip mall/abandoned structure located at One Hopper Circle in Hazard, Kentucky. The work was performed in accordance with our Engagement Letter dated May 26, 2017 and executed on June 13, 2017. SMG completed the lead-based paint building inspection and site sampling work on July 10-11, 2017.

SMG collected a limited number of paint chip samples to determine the potential presence of lead-based paint on interior and exterior structural components identified within the abandoned building. Paint chip sampling was limited to facility structural components that could potentially be impacted by planned demolition activities.

Lead-Based Paint Assessment

SMG collected a total of six (6) paint samples from surfaces on interior/exterior walls, doors and other structural components primarily involving substrates of drywall, concrete, wood and metal. Analysis of the six (6) paint chip samples indicated the samples contained lead at trace concentrations ranging from non-detect (<0.010%) to 0.26% lead by dry weight.

Rules, regulations and guidance concerning lead paint are numerous, convoluted and rely extensively on the type of structure and whether the concern is for workplace exposure, living area exposure or other aspects.

- In EPA and HUD guidance and regulations, lead-based paint is any paint, varnish, stain, or other applied coating that has 0.5% Lead by dry weight or 5,000 milligrams per kilogram (mg/kg) or more of lead. Equivalent units of measure utilized for classifying lead-based paint include 1milligram per square centimeter (1mg/cm^2) and 5,000 parts

per million (ppm). The 0.5% threshold is primarily utilized in HUD regulations for target housing and child-occupied facilities.

- The Consumer Product Safety Commission (CPSC) now considers paint containing less than 0.009% lead to be "lead free." Until recently the threshold utilized by the CPSC was 0.06% lead. Kentucky statute 902 KAR 47:050, "Ban of paint, coatings and certain consumer products containing lead" currently still defines "lead-containing paint" at the 0.06% threshold.
- OSHA's regulatory definition of LBP is any detectable concentration of lead by an approved analytical method such as Inductively Coupled Plasma-Atomic Emission Spectroscopy (ICP-AES), EPA Method 6010 which was used by SMG's approved laboratory.

None of the six (6) samples collected exceeded the EPA/HUD threshold of 0.5% by dry weight which is their definition of a "lead-based paint".

Four (4) of the six (6) samples collected from coatings were found to be below what OSHA defines as a "detectable concentration of lead by an approved analytical method". Based upon the laboratory's approved analytical methodology, the analytical limit of quantitation (detectable concentration) is 0.01%.

Analytical results with chain-of-custody are provided as an Attachment, and results are represented as percent lead by weight. The table of results provided below includes the paint sample's concentration in percent lead as well as the sample type, location and substrate.

The 35,000-square foot, one-story building is in poor condition with significantly damaged interior components, debris throughout and possible structural damage. Identified coatings on building and structural components were fairly consistent throughout the building, limiting the number of overall samples.

Lead-Based Paint Sampling Results-Abandoned Strip Mall
One Hopper Street, Hazard, KY
Sampling Date: July 11, 2017

Sample ID	Color	Substrate	Bldg. Component	Sample Location	Lead Concentration
HC-L-1	White	Brick and Block	Exterior Wall	Exterior White Paint on Brick and Block Walls	<0.010%
HC-L-2	White	Metal	Interior Posts for Beams	East Side of Building, White Paint on Steel Posts	0.26%
HC-L-3	White/Red Underlying	Metal	Structural Posts/Beams	Center Section of Building	<0.010%

Sample ID	Color	Substrate	Bldg. Component	Sample Location	Lead Concentration
HC-L-4	Red	Wood	Windows	Wood Window Trim, North Side	<0.010%
HC-L-5	Crème	Block	Wall	Exterior Paint on North Side Wall	<0.010%
HC-L-6	Tan	Metal	Interior Structural Beams	Basement/ 1st floor	0.13%

SMG used EMSL Analytical, Inc. for analysis of paint samples collected within the facility. Each of the paint samples were analyzed by EMSL Analytical using EPA method SW846 3050B/7000B; Flame AAS. None of the samples exceeded the EPA/HUD threshold of 0.5% which currently defines lead-based paint (LBP) within their agencies.

Regulatory Review

The primary Government regulating agency that would have authority over identified lead-based paint at the One Hopper Circle building is OSHA as administered through the Kentucky Occupational Safety and Health Administration (KYOSHA).

In 1978 the Occupational Safety and Health Administration (OSHA) promulgated a final lead standard for general industry which is identified in 29 CFR 1910.1025. This standard applies to all occupational exposures to lead except for those in the construction industry and for agricultural operations. In summary it establishes that, all surfaces shall be maintained as free as practicable of accumulations of lead as well as establishing airborne exposure limits that, when exceeded, trigger worker protection, recordkeeping, and training requirements. The final rule for lead exposure in construction is identified in 29 CFR 1926.62 and is the regulation that would apply to construction work such as renovation and demolition of a facility where an employee could be occupationally exposed to lead. Maintenance workers engaged in interim control or abatement work are also covered by the construction standard. Demolition of the structure would be subject to the construction standard.

If the facility meets the definition of a "Child-Occupied Facility" or "Target Housing" according to KRS 211.9061 (this site does not) then the Kentucky Department for Public Health would regulate lead-based paint activities in addition to KYOSHA. Child-Occupied Facility "means a building, or portion of a building constructed prior to 1978 other than target housing in which a child, six (6) years of age or under, spends at least three (3) hours a day, two (2) days a week, including but not limited to, child day-care facilities, family child-care homes, pre-schools, and kindergarten classrooms". "Target Housing" means any housing constructed prior to 1978, except housing for the elderly or persons with disabilities in which no child less than six (6) years of age resides or is expected to reside.

Additional Regulatory Information & Requirements

The HUD guidelines established by Title X are intended to complement regulations, other directives, and other guidelines to be issued by HUD, EPA, OSHA and the Centers for Disease Control and Prevention (CDC). The Residential Lead-Based Paint Hazard Reduction Act of 1992 (Title X) directs EPA to promulgate regulations aimed at fulfilling the purposes of Title X. Title X amended the Toxic Substances Control Act (TSCA) by adding a new Title IV. Under TSCA section 402, the EPA has developed a final regulation to govern the training and certification of individuals engaged in lead-based paint activities, the accreditation of training programs and standards for conducting lead-based paint activities (specifically target housing and child-occupied facilities). Section 403 of TSCA requires the EPA to develop and promulgate health-based standards which would provide the basis for identifying hazardous levels of lead in dust, soil, and paint. The regulations mentioned above pertain primarily to "Target Housing" and Child-Occupied Facilities" as well as specific HUD regulated/funded housing projects.

Site Specific Hazards and Recommended Action

Lead was not determined to be present at greater than 90 mg/kg (0.009%, CPSC rule which is the maximum amount of lead in paint that may be sold for consumer use) in samples HC-L-1, HC-L-3, HC-L-4 and HC-L-5. The ban and limitation on products or coatings containing lead can be found in 16 C.F.R. 1303. The remaining two samples have enough of a lead concentration where employees conducting renovation activities could potentially be exposed to airborne concentrations of lead depending on the specific construction activity. However, this is unlikely based on the low lead content and the fact that the coating is on steel posts or beams which are typically demolished utilizing procedures that would not generate significant airborne concentrations of lead. The highest lead concentration was found on the steel posts on the east side of the building (sample number HC-L-2) which had a measured lead concentration of 0.26%.

Coatings on mechanical and equipment components or other non-structural components are not addressed within the lead-paint assessment. Individual mechanical and equipment components can typically be removed intact or dismantled without creating airborne exposure scenarios for workers.

Any contractor performing demolition activities impacting the identified coatings should be notified that some coatings may potentially contain low concentrations of lead and should be provided a copy of this report as a form of "hazard communication". The renovation or demolition contractor is responsible for "Worker Protection" (OSHA Compliance) and the building owner is responsible for notifying the contractor of any identified lead-based paint hazards. Any facility component with deteriorated paint that is not tested and does not have a painting history similar to a tested component should be considered a lead-based paint hazard until confirmatory testing can be conducted.

OSHA is the primary regulatory agency involved with lead in construction and is specifically concerned with worker protection. Historical data regarding airborne exposures at concentrations of lead in paint exceeding 5,000 mg/kg can indicate exposures at or above OSHA exposure limits when conducting routine construction or renovation work. The actual type of work impacting the coating itself (sanding, grinding, etc.) plays an important part in the determination of potential airborne lead concentrations. *It is important to remember that per OSHA any detectable lead in a paint makes it lead paint for purposes of complying with the worker protection requirements of the OSHA Lead in Construction Standard. However, at trace levels (<100 mg/kg) of lead identified within some of the samples, airborne exposures to lead should be well below regulatory limits based on historical monitoring data and studies. This includes work involving traditional coating removal such as sanding, grinding, etc.*

The renovation and/or demolition contractor is always responsible for meeting the OSHA Construction Standard requirements for their project and employees. If a contractor can show through employee monitoring (exposure assessment) or through accumulated historical data that their employees are not being exposed above the OSHA Permissible Exposure Limit (PEL) or Action Level (AL) referenced in the OSHA Construction Standard for Lead, 29 CFR 1926.62, then site specific lead-abatement through a lead abatement contractor would not be required.

Lead-based paint waste (e.g., paint chips, dust, and sludges) from construction and demolition debris (C&D debris) that is contaminated with lead-based paint must be managed as a potential Resource Conservation and Recovery Act (RCRA) hazardous waste. The RCRA waste rule requires an analytical test to determine whether the waste is a characteristic hazardous waste due to leachability and is expressed in milligrams per liter (mg/l). The analytical procedure is called a Toxicity Characteristic Leaching Procedure (TCLP) and with respect to lead-based paint waste being profiled, concentrations of lead greater than or equal to 5.0 mg/l are considered hazardous waste which will increase overall disposal costs. In Kentucky, the Division of Waste Management does not have specific requirements for C&D debris that is removed intact (the lead-containing coating still intact) and their current opinion is that when characterized with the total debris waste stream this waste will be below the threshold of 5.0 mg/l triggering hazardous waste designation. However, contractors must contact the specific municipal waste landfill prior to transport to confirm the individual landfills policy on accepting this waste and/or if they require the TCLP for characterization. Due to the low levels of lead identified in the suspect coatings, this should not be an issue for this specific demolition project.

Recommended Actions:

- Inform the demolition contractor that a LBP assessment was conducted and only low levels of lead were found in some coatings.
- Reiterate to the demolition contractor that compliance with the OSHA Lead in Construction Standard is the responsibility of the contractor.
- Provide the demolition contractor with a copy of the LBP inspection report or other form of written notification indicating sampling had occurred and the results of the LBP sampling.

Laboratory data, chain of custody, and a photo log are provided as an attachment. Should you have any questions on this or any other environmental health and safety matter please do not hesitate to call.

Sincerely,
SMITH MANAGEMENT GROUP

Subject: Dixie Recycling in Hazard, KY

Follow Up Flag: Follow up
Flag Status: Flagged

Mr. Stauffer,

The Dixie Recycling facility recycles metals. It is a metals only scrap yard. The facility receives metals in various forms and processes the metals by crushing or segregation. The materials are then loaded for transportation. As the facility is recycling we don't regulate the facility or materials as wastes.

An inspection was conducted on April 9, 2012, by the Hazard Regional Office. The inspection found only a scrap metal processing facility, which is not required to be registered as a Solid Waste Recycling Center pursuant to 401 KAR 47:110.

The facility has a permit with the Division of Water. The over-ground runoff is directed to an outfall. The outfall is permitted. The permit with the Division of Water required monthly monitoring for flow, pH, suspended solids, oil and grease, iron, copper, lead, zinc, chemical oxygen demand. The facility occasionally exceeds its permit limits but those exceedances are in line with similar facilities. The outfall water enters into the North Fork of the Kentucky River.

If the Division of Waste Management had information in terms of sampling data, etc. that indicated that Dixie Recycling was a danger to human health to the surrounding properties the Division would take action. By all appearances, Dixie Recycling is a typical metal recycler that does not pose a human health risk to surrounding properties. This is a qualitative judgment. The Division does not collect data on recycling operations such that it can make specific, data to support, statements regarding potential impacts to surrounding properties from recycling operations.

Edward Winner, PhD
Assistant Director

Subject: Information from Solid Waste Branch regarding Dixie Recycling (Hazard) Violations and risks to nearby residents
Attachments: ECHO Report-Dixie Recycling-VIOLATIONS.pdf

Hello-

Kentucky Housing Corporation is conducting and Environmental Assessment for a proposed 15-unit subdivision in Hazard. A NEPAssist search for the project site identified one nearby EPA-regulated facility, Dixie Recycling, with a history of recent non-compliance (as demonstrated in the attached ECHO report), specifically for failure to report and limit violations. Can the Energy and Environment Cabinet please let me know if the Dixie Recycling site would pose any health risks to residents residing 1531 feet away?

Thank you!

Curtis Stauffer

Demographic Profile

EJSCREEN EJ Indexes

Eleven primary environmental justice (EJ) indexes of EJSCREEN, EPA's screening tool for EJ concerns. EPA uses these indexes to identify geographic areas that may warrant further consideration or analysis for potential EJ concerns. Note that use of these indexes does not designate an area as an "EJ community" or "EJ facility." EJSCREEN provides screening level indicators, not a determination of the existence or absence of EJ concerns. For more information, see the EJSCREEN home page.

Census Block Group EJ Indexes (percentile)	
Particulate Matter (PM 2.5)	33.9
Ozone NATA Diesel PM	39
NATA Air Toxics Cancer Risk	31.5
NATA Respiratory Hazard Index (HI)	25.3
Traffic Proximity	34.2
Lead Paint Indicator	23.4
Superfund Proximity	46.4
Risk Management Plan (RMP) Proximity	55.3
Hazardous Waste Proximity	56.1
Wastewater Discharge Proximity	17.1

Number of EJ Indexes Above 80th Percentile
0

Demographic Profile of Surrounding Area (3 Miles)

This section provides demographic information regarding the community surrounding the facility. ECHO compliance data alone are not sufficient to determine whether violations at a particular facility had negative impacts on public health or the environment. Statistics are based upon the 2010 US Census and American Community Survey data, and are accurate to the extent that the facility latitude and longitude listed below are correct. The latitude and longitude are obtained from the EPA Locational Reference Table (LRT) when available.

General Statistics	
Total Persons	9,358
Population Density	335/sq.mi.
Percent Minority	7%
Households in Area	3,735
Housing Units in Area	4,202
Households on Public Assistance	83
Persons Below Poverty Level	5,036

Geography	
Radius of Selected Area	3 mi.

Detailed Facility Report

Facility Summary

HAZARD, CITY OF
332 NORTH FORK RD, HAZARD, KY 41701

FRS (Facility Registry Service) ID: 110039994959
EPA Region: 04
Latitude: 37.273056
Longitude: -83.1875
Locational Data Source: NPDES
Industry:
Indian Country: N

Enforcement and Compliance Summary

Statute	Insp (5 Years)	Date of Last Inspection	Compliance Status	Qtrs with NC (Noncompliance) (of 12)	Qtrs with Significant Violation	Informal Enforcement Actions (5 years)	Formal Enforcement Actions (5 years)	Penalties from Formal Enforcement Actions (5 years)	EPA Cases (5 years)	Penalties from EPA Cases (5 years)
CWA	5	10/19/2018	**No Violation Identified**	8	2	21	5	$22,000	--	--

Regulatory Information

Clean Air Act (CAA): No Information
Clean Water Act (CWA): Major, Permit Expired (KY0020079)
Resource Conservation and Recovery Act (RCRA): No Information
Safe Drinking Water Act (SDWA): No Information

Other Regulatory Reports

Air Emissions Inventory (EIS): No Information
Greenhouse Gas Emissions (eGGRT): No Information
Toxic Releases (TRI): No Information
Compliance and Emissions Data Reporting Interface (CEDRI): No Information

Demographic Profile

EJSCREEN EJ Indexes

Eleven primary environmental justice (EJ) indexes of EJSCREEN, EPA's screening tool for EJ concerns. EPA uses these indexes to identify geographic areas that may warrant further consideration or analysis for potential EJ concerns. Note that use of these indexes does not designate an area as an "EJ community" or "EJ facility." EJSCREEN provides screening level indicators, not a determination of the existence or absence of EJ concerns. For more information, see the EJSCREEN home page.

Census Block Group EJ Indexes (percentile)	
Particulate Matter (PM 2.5)	42.2
Ozone NATA Diesel PM	45.7
NATA Air Toxics Cancer Risk	40.2
NATA Respiratory Hazard Index (HI)	34.9
Traffic Proximity	37.8
Lead Paint Indicator	33.2
Superfund Proximity	49.5
Risk Management Plan (RMP) Proximity	56.3
Hazardous Waste Proximity	56.7
Wastewater Discharge Proximity	10.1

Number of EJ Indexes Above 80th Percentile
0

Demographic Profile of Surrounding Area (3 Miles)

This section provides demographic information regarding the community surrounding the facility. ECHO compliance data alone are not sufficient to determine whether violations at a particular facility had negative impacts on public health or the environment. Statistics are based upon the 2010 US Census and American Community Survey data, and are accurate to the extent that the facility latitude and longitude listed below are correct. The latitude and longitude are obtained from the EPA Locational Reference Table (LRT) when available.

General Statistics	
Total Persons	9,269
Population Density	332/sq.mi.
Percent Minority	7%
Households in Area	3,689
Housing Units in Area	4,159
Households on Public Assistance	76
Persons Below Poverty Level	4,953

Geography	
Radius of Selected Area	3 mi.
Center Latitude	37.273056
Center Longitude	-83.1875
Land Area	99%
Water Area	1%

Income Breakdown - Households (%)	
Less than $15,000	1,179 (31.87%)
$15,000 - $25,000	540 (14.6%)
$25,000 - $50,000	948 (25.63%)
$50,000 - $75,000	356 (9.62%)
Greater than $75,000	676 (18.28%)

Age Breakdown - Persons (%)	
Children 5 years and younger	548 (6%)
Minors 17 years and younger	1,905 (21%)
Adults 18 years and older	7,364 (79%)
Seniors 65 years and older	1,466 (16%)

Race Breakdown - Persons (%)	
White	8,618 (93%)
African-American	320 (3%)
Hispanic-Origin	75 (1%)
Asian/Pacific Islander	124 (1%)
American Indian	10 (0%)
Other/Multiracial	197 (2%)

Education Level(Persons 25 & older) - Persons (%)	
Less than 9th Grade	1,026 (15.86%)
9th through 12th Grade	654 (10.11%)
High School Diploma	2,118 (32.73%)
Some College/2-year	1,487 (22.98%)
B.S./B.A. (Bachelor of Science/Bachelor of Arts) or More	1,186 (18.33%)

ICIS Detailed Reports

<< Return

This page was created on FEB-11-2020
Results are based on data extracted on NOV-10-2019

Note: You are viewing results from the modernized data system, Integrated Compliance Information System (ICIS). The state reporting this data to EPA previously reported the data to a historic data system, Permit Compliance System (PCS). Use the following button to view the historic data from PCS. **Run a PCS Search**

Facility

FACILITY NAME (1)	HAZARD, CITY OF	NPDES	KY0020079
